Lis_04: To improve PT offer, adapted to school students

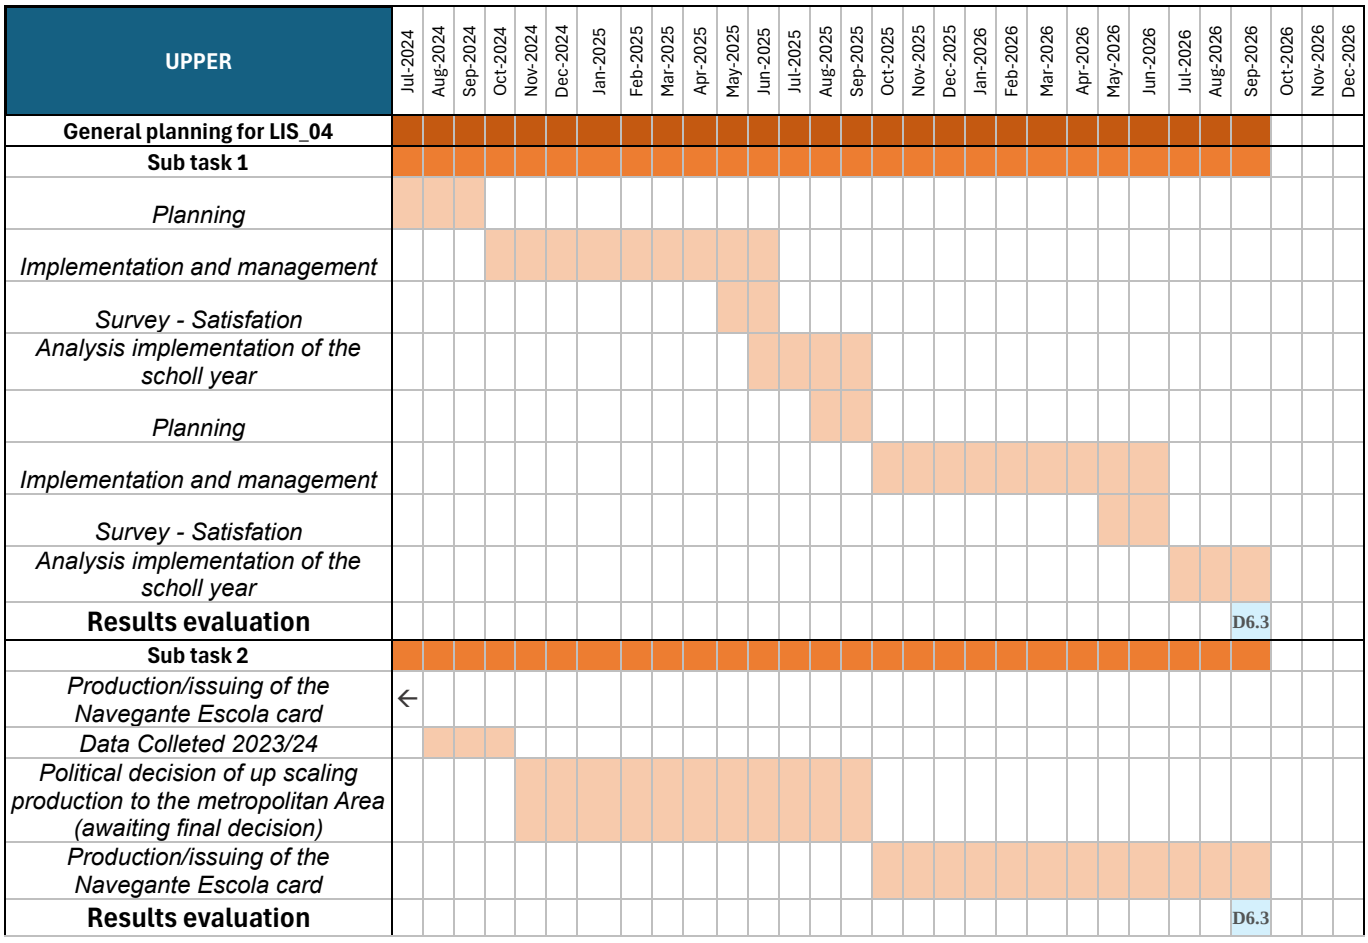
Activities towards demonstration *(How?)*

Demonstration activities

Sub-Task 1: Amarelo Pilot project

The next step is to follow up the day-to-day development of the service during the school year and implement adjustments if needed.

Sub-Task 2: Navegante Escola PT ticket card

The Navegante Escola Card Platform if fully operational since January 2024. There's a proposal to extend the Navegante Escola to all the 18 municipalities within Lisbon Metropolitan Area, so at this time the production/issuing of the Navegante Escola card and its promotion in Lisbon Municipality is, by the submission of this deliverable, on hold.


Timeline for implementation and demonstration *(When?)*
