

### TES\_05: To enhance the information provided through adapted services for different groups of passengers

#### Activities towards demonstration (How?)

#### Completion of the preparation activities

Run some tests to verify that the individualization algorithm provides different options according to different users

#### Preliminary works

N/A.

#### Deployment and integration

Integrate the algorithm with the individualization capabilities in the eMaaS app (for now a new version that includes the public buses services has been integrated)

Integrate information for the new metro line in the multimodal trip planner

Recruit demo participants willing to use the digital service.

#### Demonstration activities

Data collection regarding all KPIs related to TES\_05 defined under WP7. U-SUMP can be used to monitor the measure based on its related UPPER indicators.
